DETAILED ACTION

This action is responsive to the Board of Appeals and Interferences decision filed 1/31/2006. Claims 15 and 16 were pending, and the appealed rejections have been reversed.

Allowable Subject Matter

1. Claims 15-16 are allowed. The following is an examiner's statement of reasons for allowance: Prior art CPR devices such as Cantrell (U.S. 6,174,295), Waide (U.S. 5,399,148), Woudenberg (U.S. 4,664,098), Barkalow (U.S. 3,610,233), and Mills (U.S. 3,978,854) teach devices that disclose the state of the art. The prior art of record fails to teach or make obvious a CPR device including a torso wrap, an energized compressor assembly including an actuator and pressurized fluid, wherein the actuator includes a cylinder having an inside surface and a piston with telescoping piston parts including an upper piston and lower piston including a pressing member to press against a user's chest. Furthermore, the prior art fails to teach or make obvious in CPR devices, a saucer shaped stabilizer as disclosed by the Applicant and interpreted in the Board of Appeals decision filed 01/31/2006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
